For a creamy cappuccino or tasty latte macchiato, perfectly frothed hot milk is essential. Now many other milk froth specialties are also enjoying increasing popularity – including other hot drinks such as hot chocolate and cold drinks like frappés and cocktails. The cordless WMF Lumero milk frother effortlessly masters them all with its four freely selectable programmes, which are easy to read on the LED display. The innovative, magnetically stored mixing arm is easy to remove afterwards, and thanks to the non-stick coating on the container, the appliance is extremely easy to clean. The stylish design that is typical of WMF is ensured by the casing made of high-quality Cromargan® and the separate appliance base with elegant LED lighting.
