Mercedes-Benz 710 with Kramer 411 4-wheel loader, 1:50, 265x50x60mm, 430 g

Siku 4117 scale model Truck/Trailer model Preassembled 1:50:

Unforgettable construction site heroes - Almost a million of the Mercedes-Benz with the round bonnet were built. An extraordinary quantity and an extraordinarily long production period: from 1959 to 1996. The truck carried goods, construction materials, and earth during the time of the German economic miracle, and is still in use today all round the world. It was the typical image of the large number of construction sites in Germany. The characteristic bonnet opens, and the flatbed tips. The 100 HP diesel engine pulls a low loader carrying the legendary Kramer 411 all-wheeler. Since the 1950s the yellow wheeled loaders have been moving earth, shifting bulk goods, and transporting pipes or pallets. The combination is in the historic design of the Bölling construction company.
