HOTPLATE Elena 58845

Unold Elena food warmer Black, Stainless steel:

Highly sought-after: wireless hotplate from UNOLD The ELENA heat storage plate is perfect for keeping plates and food warm - on a festive table or a buffet. The highlight: The 1100 watt hotplate can be used wirelessly thanks to the ceramic heat storage and keeps your favorite dishes warm for up to 60 minutes. And if dinner should last longer, no problem either. Because the heat storage plate can maintain the desired temperature for several hours with the charging cable. Another advantage is the very short heating time of around 5 minutes. And don't forget: The ELENA hotplate gives every buffet a special shine with its stainless steel design - without an annoying cable at the table. All in all, a real hot deal for gourmets, because lukewarm food from the buffet is a thing of the past. You always serve everything hot as if it had come straight from the kitchen - your guests will be delighted!
